PUBLIC HEALTH DEPARTMENT
Council Offices, Shenley Road, Borehamwood.

Divisional Health & Welfare Office,
Bleak House,
St.Albans, Herts.

MR. CHAIRMAN, LADIES AND GENTLEMEN,

I have the honour to present my annual report on the health of the Elstree Rural District for the year of 1967.

I am happy to be able to report that the general health of the area remains good. The crude death rate fell from 11.8 to 10.9 per 1,000 of the estimated population in 1967 as compared with 1966. The comparable death rate, which is corrected to allow for the population structure of the area as compared with the rest of the country was 10.4 compared with the rate for the whole of England and Wales of 11.2. As in previous years the major causes of death were the degenerative and the malignant diseases particularly cardio-vascular disease which was the largest single cause of death.

The falling trend in the birth rate continued with a drop from 13.4 live births per 1,000 population in 1966 to 12.3 in 1967. This is in line with the national trend and is no doubt associated with the availability of more effective forms of contraception.

The biennial epidemic of measles led to 563 cases of the disease being notified in 1967 compared with 307 in 1966. This disease causes a great deal of ill health amongst young children and an effective vaccine has recently become available which at the time of writing is being offered to all children in the age group 4 - 7 years, who have not already had the disease, in the hope of preventing the next epidemic, which is due in 1969.

As in previous years my thanks are due to the many people, both within the Public Health Department and in other agencies, without whose co-operation the work of the Department would have been impossible. Finally I should like to express my gratitude to you Mr. Chairman, Ladies and Gentlemen for the interest you have taken in the work of the Department throughout the year and for all the help and consideration you have given to myself and my staff.

I have the honour to be your obedient servant,

CARL BURNS
Medical Officer of Health

Section A
STATISTICS AND SOCIAL CONDITIONS
OF THE AREA

On the 1st April 1968 there was a revision of the boundaries of the Elstree Rural District. Part of the Watford Rural District - the Brookmeadow Ward of Aldenham Parish - was transferred to the Elstree Rural District. The reason for the transfer was that residential development of the town of Borehamwood had extended over the district boundary. The development being part of an estate constructed by the then London County Council between the years 1950 and 1954.

The area added to the district is 397 acres.

Area	8736 acres
Population (mid 1967 - Registrar General's Estimate)	30,550
Total number of inhabited houses	9,810
Rateable Value (1st April 1968)	£2,170,706
Estimate product of a penny rate (1st April 1968)	£9,000

VITAL STATISTICS

GENERAL PROVISION OF HEALTH SERVICES
FOR THE AREA.

1. PUBLIC HEALTH OFFICERS.

Medical Officer of Health and Deputy. Both full time officers of the County Council.

One Chief and two District Public Health Inspectors (all whole-time, qualified Public Health Inspectors and Meat and Food Inspectors).

The Health and Housing Committee deals with all matters relating to Public Health. They meet at six-weekly intervals and receive the reports of the Medical Officer of Health and the Chief Public Health Inspector.

2. (a) LABORATORY FACILITIES

Samples of water, milk and ice-cream are examined at the Public Health Laboratory, Peace Memorial Hospital, Watford.

(b) AMBULANCE FACILITIES

Cases of infectious disease are conveyed to the Coppetts Wood Isolation Hospital, Muswell Hill and the West Hendon Hospital. The ambulance for non-infectious cases, provided by the Herts County Council, is stationed at the Fire Station, Elstree Way, and is manned by the Herts Ambulance Brigade Staff. If this service is not available, ambulances are on call from a pool controlled by the West Herts Divisional Control, St. Albans.

(c) NURSING IN THE HOME

The area has five whole-time Health Visitors, one part-time Health Visitor, four District Nurses employed on general nursing, two midwives and two District Nurse Midwives.

(d) TREATMENT CENTRES AND MATERNITY AND CHILD WELFARE CLINICS

(1) Elstree Way, Borehamwood.

Ante-Natal Clinic (Bushey Maternity)	Wednesdays at 10 am - 12 noon and 2 - 4 pm
Infant Welfare	Thursdays 10am - 12 noon and 2 - 4 pm
Family Planning	Fridays 2 - 4 pm and Tuesdays 6.30 pm - 7 pm
** Speech Therapy	Tuesdays 9.30 am - 4.30 pm Mondays 2 - 4.30 pm
** Ophthalmic	Wednesdays 1.15 - 2.45 pm
Diphtheria & Whooping Cough Immunisation	Fridays 9.45 - 11 am
** School Dental Clinic	Daily except Thursdays 9.30am - 5 pm
Orthodontic	Tuesdays am by Appointment only
Mothers Club	1st & 3rd Tuesdays at 2 pm

(ii) Health Annexe, Greenacres School, Borehamwood.

Infant Welfare	Tuesdays 2 - 4 pm
** Speech Therapy	Mondays 9.30 am - 12 noon Fridays 9.30 am - 12 noon
School Dental Clinic	Fridays am and pm

(iii) Health Annexe, Saffron Green School, Borehamwood.

Infant Welfare	Tuesdays 2 - 4 pm
School Dental Clinic	Mondays & Wednesdays am & pm
** Speech Therapy	Fridays 1.30 - 4.30 pm

(iv) Village Hall, Shenley.

Infant Welfare & Immunisation
1st and 3rd Wednesdays of the month 2 - 4 pm

** Treatment by appointment only.

(e) HOSPITALS

The Rural District of Elstree is covered by the North West Metropolitan Regional Hospital Board. Individual hospitals are managed by Hospital Management Committee Groups.

Barnet General Hospital.

General Hospital with complement of 471 beds and the usual medical and surgical facilities. Regular consultative clinics are as follows:-

Ante-Natal	Gynaecological	Physical medicine
Dental	Medical	Plastic Surgery
Dermatological	Neurology	Post-Natal
Chiropody	Ophthalmic	Psychiatric
Ear, Nose & Throat	Orthopaedic	Radiotherapy
Geriatric	Paediatric	Sub-Fertility (Males)
		Surgical
		Tuberculosis

St. Stephens Hospital

Small General Hospital with complement of 94 beds

Victoria Hospital, Wood Street, Barnet.

Maternity Hospital with complement of 50 maternity beds and 50 cots.

Clare Hall Hospital, South Mimms.

Chest Hospital with complement of 334 beds

Child Guidance Clinic, Orchard Gate, Hill End, St. Albans.

Child Guidance service: Monday to Friday 9 a.m. to 5 p.m.
(Patients seen by appointment only)

St. Albans City Hospital, Normandy Road, St. Albans.

Veneral Diseases: Tuesdays 5 - 6.30 p.m.
Thursdays 1 - 2 p.m.

Shrodells Hospital, Watford.

Veneral Diseases: Mondays 4 - 6 p.m.
Wednesdays 4 - 6 p.m.
Saturdays 10am to 12 noon

Bushey & District Hospital, Bushey

General Hospital with complement of 37 beds.

Coppetts Wood Hospital, London, N.20 (Telephone 01-883-9792)

Cases of infectious diseases (excluding Smallpox) are taken to this Hospital. Bed complement 144

SANITARY CIRCUMSTANCES OF THE AREA

WATER SUPPLY

The Rural District has 3 Parishes, Elstree, Shenley and Ridge.

The Parish of Ridge and a small part of Elstree Parish is supplied with water by the Lee Valley Water Company.

The Parish of Shenley and the rest of Elstree Parish is supplied with water by the Colne Valley Water Company.

I am indebted to the above-mentioned companies for the following information regarding the water supplied to the district.

1. The water supply has been satisfactory in quality and quantity.
2. 732 samples of raw water were submitted to bacteriological examination. The results were variable.
2664 samples of supply water were submitted to bacteriological examination. The results were satisfactory.
366 samples of raw water were examined chemically. The results were variable.
655 samples of supply water were examined chemically. The results were satisfactory.
3. In each of the routine chemical analyses referred to above, lead was absent, and, as a consequence of a circular issued by the Ministry of Housing and Local Government relating to the subject of lead in drinking water, in November 1967 three samples were examined from houses in the area served by the Elstree Rural District Council which are supplied by this Company.
In each case, the sample was taken after the water had stood in the lead service pipe for about 7 to 8 hours. The concentration of lead in these samples varied from 0.01 to 0.3 ppm, which was satisfactory.
4. Before distribution, the raw water is chlorinated and partially dechlorinated. Part of the supply is filtered and part is partially softened.

All the houses in the district are supplied from public water mains direct to the houses with the exception of one isolated house in the Parish of Ridge, which has a water supply from a private well.

The fluoride content of the water supply is less than 0.1 part per million. The Council has asked the Minister of Health to require the addition of fluoride to drinking water throughout the country where the naturally occurring amount is insufficient.

Pulmonary Tuberculosis	7
Non Pulmonary Tuberculosis	2

ANNUAL REPORT OF THE CHIEF
PUBLIC HEALTH INSPECTOR

MR. CHAIRMAN, MADAM AND GENTLEMEN

I have pleasure in presenting my Annual Report for the year 1967.

It is pleasing to note that it was not necessary during the year to institute legal proceedings under any of the enactments for the administration of which the Health Department is responsible. We are fortunate in having less problems than most other districts, the general standard of housing accommodation is satisfactory, there are very few unfit houses but several dwellings still require bathrooms and other modern amenities.

Routine visiting of shops, work-places and other premises has ensured that satisfactory standards are maintained and I would like again to pay tribute to the district Public Health Inspectors for their work.

It is a pleasure to record my sincere thanks to the Council for their encouragement and support during the year. I am also grateful to the staff of the Health Department and my colleagues in other departments for their co-operation.

I am,

your obedient servant,

G. E. MALE

Chief Public Health Inspector.

INSPECTIONS DURING THE YEAR

A total of 3447 visits and inspections of all types of premises was made during the year. 404 inspections of food handling premises were carried out.

110 Informal Notices requiring the remedy of defects in dwelling houses were served during the year. In only 3 instances was the service of a Statutory Notice necessary.

FOOD AND DRUGS ADMINISTRATION

The Hertfordshire County Council are responsible for sampling food and drugs in this district and I am indebted to Mr. D.A.Oulsnam, Divisional Inspector, Weights and Measures Department, for the following information regarding samples taken in the Elstree Rural District during 1967:

Milk Samples		34
		All genuine
Samples other than milk		84

One of these, a sample of Gin, contained 1% of added water but further samples from the same source have proved satisfactory. The sample containing added water was purchased from a 'managed house' and the attention of the owners was drawn to the occurrence.

CARAVANS

There are two privately owned multiple caravan sites in the district, accommodating 60 caravans. In addition 12 caravans are licensed on individual sites.

As in previous years, trouble has been experienced from time to time by the unauthorised use of road verges by caravan dwellers. With the co-operation of the police and County Highways Department, this problem has been kept under control.

FOOD PREMISES

There are 181 premises in the district where food is prepared for sale, or sold, or offered or exposed for sale to the public.

The following table gives a summary of the types of food premises in the area.

General Provision shops	27	Butcher shops	12
Confectioners (Sweets etc)	18	Greengrocers	13
Confectioners (Bakers)	8	Fishmongers	4
Ice Cream Manufacturers	5	Bakehouses	3
Cafes & Restaurants	13	Factory canteens	24
Licensed Premises	20	School canteens	18
Chemists	7	Off Licences	7
Milk Distributing Depots	2		

All the above-mentioned premises were inspected during the year.

FOOD AND DRUGS ACT, 1955 Milk and Dairies Regulations

The following table gives particulars of milk samples taken during the year from purveyors within the district. All samples satisfied the prescribed tests as required by the Milk and Dairies Regulations.

Total No. of Samples	Tuberculin Tested Pasteurised	Pasteurised	Sterilised
13	12	-	1

ICE CREAM (HEAT TREATMENT) REGULATIONS 1959

Under Section 16 of the Food and Drugs Act 1955, there are 5 registrations in the district of premises used for the manufacture and sale of ice-cream, and 41 premises registered for the sale of ice-cream.

38 samples were taken during the year. The results of the bacteriological examinations are as follows:-

Grade I	Grade II	Grade III	Grade IV
25	9	2	2

Provisional Grades 1 and 2 are regarded as satisfactory. Grades 3 and 4 are unsatisfactory.

ANIMALS SLAUGHTERED AND INSPECTED AND
PARTICULARS OF CONDEMNATIONS

	Cattle ex Cows	Cows	Calves	Sheep and Lambs	Pigs	Horses
Number Killed					378	
Number inspected					378	
ALL DISEASES EXCEPT TUBERCULOSIS AND CYSTICERCI:						
Whole carcasses condemned					1	
Carcasses of which some part or organ was condemned					58	
Percentage of the number inspected affected with disease other than Tuberculosis & Cysticerchi					15.61%	
TUBERCULOSIS ONLY:						
Whole carcasses condemned					Nil	
Carcasses of which some part of organ was condemned					3	
Percentage of the number inspected affected with Tuberculosis					0.79%	
CYSTICERCOSIS:						
Carcasses of which some part or organ was condemned						
Carcasses submitted to treatment by refrigeration						
Generalised and totally condemned						

SEWAGE DISPOSAL

The main centres of population in the district are served by drains connected to the trunk sewer of the South-West Herts Main Drainage Authority, the sewage being treated at Rickmansworth. There are small treatment works within the district at Catherine Bourne and Bell Lane, Shenley and at Watford Road, Elstree.

83 private septic tank disposal units at farms and isolated dwellings were desludged twice during the year. The work is carried out by arrangement with the St.Albans Rural District Council.

The number of houses in the district without water-closets has now been reduced to 2, and efforts are continuing to persuade the owners of these properties to provide improved sanitary facilities.

PUBLIC CLEANSING.

House refuse is collected weekly from the whole of the District by the Council's own staff (under the control of the Engineer and Surveyor), and disposed of by controlled tipping on the site of the disused sewage works at Moor Mills, Park Street, Nr.St.Albans.

Paper sacks instead of dustbins are now used throughout the district.

SWIMMING POOLS

There are no public swimming pools in the Elstree Rural District. A large public swimming pool is in the course of construction and will be opened in 1968.

CLEAN AIR

The area between the Barnet-By-Pass and Furzehill Road, from Shenley Road and Elstree Way, southwards to the district boundary is subject to Smoke Control. This includes most of the industrial area and a large part of the residential area of Borehamwood.

RODENT CONTROL

During the year investigations and treatment for rats and mice was carried out at 315 premises. 123 buildings were treated for various insect infestations.

HOUSING IMPROVEMENT GRANTS

During the year 8 applications were received for Standard Grants, all were approved.

All these houses were occupied by the owners.

One application was received for a Discretionary Improvement Grant and was approved.

Steady progress is being made but it could be much speedier if more owners of tenanted houses would take advantage of the offer of Improvement Grants.

RENT ACT 1957. CERTIFICATES OF DISREPAIR

5 applications for Certificates of Disrepair were received during the year. They were all in respect of premises which have since been the subject of a Compulsory Purchase Order.

NATIONAL ASSISTANCE ACTS 1948 and 1951

It was not necessary during the year to use the powers given to remove elderly or infirm persons who require care and attention but are unwilling voluntarily to enter hospital.

Visits are made from time to time on two elderly women each of whom lives alone and has been in hospital for a period under Orders made for their care. With home nursing, meals on wheels and the Home Help Service they manage reasonably well.

REGISTERED COMMON LODGING HOUSES

There are no registered common lodging houses in the area.

AGRICULTURE (SAFETY, HEALTH & WELFARE PROVISIONS) ACT, 1956

32 visits were made to agricultural holdings during the year for the purpose of the Act. No statutory action was required. During the year an outbreak of foot and mouth disease in another part of the country curtailed visits to farms.

THE OFFICES, SHOPS AND RAILWAYS PREMISES ACT, 1963 -

Table A - Registrations and General Inspections

TOTALS	REGISTERED		
	During the year	At end of year	Inspections made
Offices	1	39	33
